PHILOSOPHY OF PUBLIC SCHOOLS

School Board Policy AAA

We, the South Heart Public School Board, present this statement of our basic beliefs concerning education in order to formulate district goals and objectives and to establish programs that are designed to meet these goals and objectives within the legal framework of state and federal law.

We Believe:

1. The purpose of education is to equip students with the knowledge and skills necessary to become active, informed, and productive members of society. Our public schools have a responsibility to foster the growth of intelligent and informed citizens.
2. All individuals are entitled to equal rights, freedoms, and opportunities regardless of economic, cultural, or intellectual differences. The District is committed to creating and preserving a learning and working environment that promotes tolerance and is free from discrimination and harassment.
3. Only through the study of basic subject matter, history, culture and fine arts will students be prepared for both the practical tasks and complexities of the world. The District will provide all students with opportunities to participate in varied curricular offerings.
4. Education should aid in the development of good character, self-respect and self-worth, and offer opportunities to form satisfying and responsible relationships with other people. The District will offer programs that allow students to practice the skills of family and community living and that promote an appreciation for health and safety.
5. Education must look to the future. The District will offer programs to help equip students with skills that may be demanded by our future society, that help students select appropriate occupations, and that provide opportunities to develop worthwhile leisure time activities. The District will also offer programs that teach money, property, and resource management techniques and conservation practices in order to assist students with planning for the future.
6. Educational experiences should be timed in accordance with students' readiness for them. All district programs will take into account factors such as age, maturity, and readiness.
7. Appropriate discipline helps ensure that the educational program operates efficiently and helps mold students into upstanding citizens. The Board shall develop policies in accordance with law to ensure administrators are equipped to appropriately respond to disciplinary issues.
8. Parents and the community should serve as partners with schools. It takes the combined effort of all members of the community to develop and maintain an educational program that meets the objectives delineated above. District schools will embrace the support and reflect the expectations of the community.

DISTRICT GOALS & OBJECTIVES

School Board Policy AAB

The District shall comply with approval requirements in state law and shall strive to provide schools that meet the criteria for accreditation with commendation from Department of Public Instruction and that show adequate yearly progress as defined in federal law.

In addition to meeting these approval and accreditation requirements/standards, the Board has established the following mission, philosophy and school district goals and objectives:

Mission Statement

To prepare each student for the future and for lifelong learning.
“Learners for Life”

Philosophy of Education

The South Heart School District believes that the general purpose of education is to provide quality programs of study to make each individual a responsible and productive citizen, who is capable of reaching his/her fullest academic, emotional, physical and social potential.

School District Goals and Objectives

The goal of the South Heart School District is to teach students fundamentals that will enable students to earn a living, attain personal goals, and make positive changes in society.

1. To provide a well-qualified staff to guide the learning experience and aid the students in developing effective communication skills, encouraging self-discipline, and developing proficiency in academic, vocational, and occupational skills.
2. To teach respect for self and others through meaningful relationships among students, staff, and community.
3. To provide quality experiences and programs which promote physical well-being sportsmanship, teamwork, and fair play.
4. To use diagnostic assessment and evaluation to determine students with special needs in order to develop and implement corrective programs to serve those needs.
5. To develop the aspects of creativity, self-expression, critical thinking, and problem-solving within the range of each student’s ability.
6. To insure that staff, students, and parents are afforded feasible participation in the development of programs and policies that meet the educational needs of the community.

End of South Heart School Policy AAB Adopted: 7/8/15

ACCIDENTS

In the events that any student is injured in a minor way that can be handled by the staff at school, the injury will be treated with the generally accepted first aid procedure.

Should a serious injury to a student occur, the family or guardian shall be notified as soon as possible. At the parent’s request or in case of an emergency, the school may provide personnel and transportation to a medical facility. In the event the parent cannot be reached and if the accident is serious, the student shall be transported to a medical facility by school personnel.

All accidents will be immediately reported to the building principal or superintendent.

ACCIDENT BENEFIT FUND OR INSURANCE

There is presently no accident insurance at the South Heart School. Parents will have to rely on their own personal insurance for medical costs.

ACCEPTABLE USE

School Board Policy ACDA

The South Heart Public School District believes Internet access plays an important role in the education of students; however, the Internet also contains content that is not appropriate for students and staff to access. In accordance with federal law, the District has taken reasonable precautions to restrict access to materials obscene, pornographic, and/or harmful to minors through the use of software designed to block sites containing inappropriate material. While the District has taken such preventive measures, it recognizes that it is not possible to fully guarantee that students and/or staff will never access objectionable materials.

Education

The District shall provide education to students about appropriate online behavior, including interacting with other individuals on social networking websites and in chat rooms, and cyberbullying awareness and response.

Monitoring Use

Internet access is a privilege, not a right. Network storage areas shall be subject to the same scrutiny as school lockers for students. Staff shall have no reasonable expectation of privacy when using district computers and/or networks and shall use this technology solely for work-related purposes. Network administrators may view files and communications to maintain the integrity of the system and to ensure proper and responsible use of the system. Teachers and administrators will exercise supervision of student use.

Prohibitions

The District subscribes to the acceptable use policies of EduTech. All district computer users shall abide by this policy. The Superintendent or designee may take disciplinary measures when any of the following actions occur:

1. Using obscene language;
2. Accessing or creating pornographic files or sites and/or other inappropriate material;
3. Harassing, insulting, threatening, alarming, or attacking others;
4. Damaging computers, computer systems, or computer networks;
5. Violating copyright, trademark, trade secret, or other intellectual property laws;
6. Using or participating in chat lines, chat rooms, and social networking sites for personal and/or non-curricular purposes;
7. Using another's password or representing oneself as another;
8. Trespassing into another's folders, work, or files;
9. Intentionally wasting network resources including, but not limited to, emailing chain letters and/or broadcasting inappropriate messages;
10. Employing the network for political purposes as defined by state law, financial gain, and/or commercial purposes;
11. Revealing anyone's personal information such as, but not limited to, an address or phone number without appropriate consent. Students are prohibited from revealing personal information about themselves and/or others without obtaining written consent in accordance with the Federal Education Rights and Privacy Act and receiving administrative approval;
12. Other activities or actions deemed inappropriate and not in the best interest of the District, its employees, and students.

Violations

Violation of this policy will, at a minimum, result in the following disciplinary consequences for students:

1. First offense (Level I)
 - a. Loss of email and Internet privileges for four weeks,
 - b. Parents contacted.
2. Second offense (Level II)
 - a. Loss of email and Internet privileges for at least the remainder of the year.
 - b. Parents contacted.
3. A student may be subject to Level II disciplinary action on his/her first offense if administration deems this necessary based on the severity of the offense.

Violations of this acceptable use policy or any applicable federal or state law, rule, or regulation may also result in disciplinary action up to and including expulsion for students or termination of employment for staff.

Consent

All students and staff must consent to this policy in writing prior to accessing district networks and/or computers.

End of South Heart School Policy ACDA Adopted: 7/8/15

ADMITTENCE

New students to South Heart School must complete a registration packet available in the main office at South Heart School. This must be completed prior to admittance to school.

ASBESTOS NOTICE

The Asbestos Hazard Emergency Response Act (AHERA) required that all public school buildings be inspected or re-inspected for the presence of asbestos every three years after a management plan is in effect. The same statute also required initial and annual notifications of the availability of a management plan which outlines the steps to be taken to eliminate any hazards.

The South Heart Public School District has a very limited amount of asbestos containing materials in the school buildings and it is being managed in strict compliance with all pertinent federal regulations. A copy of the inspection report, which details the locations of these materials and the proper management procedures, is available for public inspection during normal working hours at the South Heart School.

ATTENDANCE & ABSENCES

School Board Policy FFB

North Dakota law contains compulsory attendance requirements for students ages seven through sixteen. In order to comply with and enforce these requirements, the Board establishes the following attendance policy.

Section I: Definitions

- A. For purposes of compulsory attendance reporting under NDCC 15.1-20-02.1 (1-2):
- *Excused absence* is an absence that the District will not use in determining if a compulsory attendance violation occurred. Any absence may be excused if it is supported by either a verbal or written excuse supplied by the student's parent, teacher, or school administrator.
 - *Unexcused absence* is any absence not supported by the verbal or written excuse required for an excused absence.

- B. For the purposes of imposing disciplinary sanctions under Section III of this policy as authorized by NDCC 15.1-20-02.1(3):
- *Approved absence* is an absence that the District believes is necessary and/or unavoidable and has received administrative approval. Necessary and/or unavoidable absences may be caused by illness, injury, family emergency, religious observance or instruction, suspension, participation in a school-related activity, court appearances when subpoenaed, or other reasons deemed necessary and/or unavoidable by the Principal or Superintendent. Students granted approved absences shall not be subject to the consequences contained in Section III of this policy. The Superintendent or designee shall develop criteria for requesting and granting an approved absence and shall establish make-up work requirements.
 - *Unapproved absence* is defined as an absence that does not meet the above criteria for approved absences. If a student is absent for an unapproved reason, the parent/guardian shall still be responsible for calling the principal's office to explain the absence, and the student will be subject to the consequences contained in Section III of this policy.

Section II: Documentation Requirements

School administration may require applicable documentation to verify an excused or approved absence, including, but not limited to:

1. Medical documentation from an appropriate licensed healthcare provider;
2. A copy of a court summons or subpoena;
3. An obituary for funeral leave;
4. Verification of planned or executed family travel (e.g., a boarding pass);
5. A request from an official at the student's place of worship;
6. A request for an absence due to a curricular or extracurricular event submitted by the student's teacher, coach, or extracurricular advisor.

Section III: Disciplinary Sanctions:

The Board believes that unapproved absences are a form of misconduct and authorizes the Superintendent to establish grade-appropriate disciplinary consequences. Students will be afforded appropriate due process rights based on the severity of the disciplinary penalty that the District is considering imposing. Students shall be required to complete make-up work in accordance with administrative regulations or will receive no credit for incomplete work.

Compulsory Attendance Violations

North Dakota law defines what constitutes a compulsory attendance violation. Suspected violations of the compulsory attendance law shall be reported to school administration and investigated in accordance with law. When a compulsory attendance violation is substantiated, the District shall comply with law enforcement reporting requirements under law.

Dissemination

This policy shall be published in all student handbooks.

2. Other absences that do not count towards the attendance policy include: school activities/field trips sponsored by South Heart Public School, in-school suspension and out-of-school suspension.

- h. Referrals to law enforcement and other outside agencies may occur if a student is habitually absent from school.

Making-up Work

- a. Students **MUST** be issued a make-up slip from the office upon their return to school.
- b. The student will have two (2) days to make-up the work missed the first day of their absence.
- c. For every day after the first absence, the student will be given 1 day to make up the work.
- d. Once the work is completed, the teacher will sign the make-up slip. The student **MUST** return the make-up slip to the office. Failure to do so may result in disciplinary actions.

Tardies

- a. Tardies will be defined as not being physically present in the classroom when the bell rings indicating the beginning of the class period. A student missing more than 15 minutes will be admitted to class with a pass from the office, but considered absent for that period.
- b. Students are allowed a maximum of ten (10) tardies per semester.
- c. Referrals to law enforcement and other outside agencies may occur if a student is habitually tardy to class/school.
- d. Administration reserves the right to decide if a tardy is excused or unexcused.

Attendance and Extra-Curricular Activities

College Days for Seniors

Each senior will be allowed 2 senior college days and 1 job shadow day. College days may be used for the purpose of visiting colleges / universities. To be counted as a college day, verification on college/university letterhead is necessary. These days may not be used after May 10th.

Absent/Tardy Incentive (Semester Test Exemption Policy)

Semester tests are given at the conclusion of each semester in all classes. Seniors may be exempt from two (2) semester tests; juniors may be exempt from one (1) semester test; sophomores may be exempt from one (1) semester test; and freshmen will not be exempt from any semester test. Any student that meets all of the following requirements in a specific class shall be exempt from taking the semester test in that class:

- If the student carries a B (3.00) or better AND five (5) or less absences for the semester.
- If the student has no violations of South Heart School or NDHSAA policies.

Those students who qualify for the exemption may elect to take the semester test at no risk for the opportunity to improve their grade. Students that are exempt from taking semester tests are not required to attend class during that testing period.

Notification Procedure for Absence/Tardies

Although students will be formally notified as noted below, it is still the responsibility of students and parents to use PowerSchool to keep track of absences and tardies prior to being notified.

BOOKS/LIBRARY

Each student at South Heart High School is encouraged to use the library/media center whenever possible. Students are required to return overdue books. Books overdue for longer than one month are considered lost and the student's parents/guardians will receive a bill for the replacement of the lost or damaged book. Textbooks that are lost or not returned are to be paid in full at the replacement value of the textbook. Textbooks that are damaged due to negligence or vandalism will be paid for at the replacement value of the textbook.

BULLYING POLICY

School Board Policy ACEA

Definitions

For the purposes of this policy:

- *Bullying* is defined as conduct prescribed in NDCC 15.1-19-17. The Superintendent should place this definition, in its entirety, in student and staff handbooks and should develop guidelines to assist students and staff with identifying this conduct.
- *Protected classes* are classifications/characteristics protected from discrimination by NDCC 14-02.4-01 and federal law. The following classes are protected: race, color, religion, sex, national origin, age, disability (physical or mental), and status with regard to marriage or public assistance.
- *School property* or the term *on-campus* refers to all property owned or leased by the District, school buses and other vehicles, or any school district sponsored or school-sanctioned activity.
- *School-sanctioned activity* is defined as an activity that:
 - a. Is not part of the district's curricular or extracurricular program; and
 - b. Is established by a sponsor to serve in the absence of a district program; and
 - c. Receives district support in multiple ways (i.e., not school facility use alone); and
 - d. Sponsors of the activity have agreed to comply with this policy; and
 - e. The District has officially recognized through board action as a school-sanctioned activity.
- *School-sponsored* activity is an activity that the District has approved through policy or other board action for inclusion in the district's extracurricular program and is controlled and funded primarily by the District.
- *School staff* include all employees of the South Heart Public School District, school volunteers, and sponsors of school-sanctioned activities.
- *True threat* is a statement that, in light of the circumstances, a reasonable person would perceive as a serious expression of an intent to inflict harm.

Prohibitions

While at a public school, on school district premises, in a district-owned or leased school bus or school vehicle, or at any public school or school district sanctioned or sponsored activity or event, a student, staff member, or school volunteer may not:

1. Engage in bullying;
2. Engage in reprisal or retaliation against:
 - a. A victim of bullying;
 - b. An individual who witnesses an alleged act of bullying;
 - c. An individual who reports an alleged act of bullying; or
 - d. An individual who provides information/participates in an investigation about an alleged act of bullying.
3. Knowingly file a false bullying report with the District.

Off-campus bullying that is received on school property is also prohibited. The District has limited disciplinary authority to respond to such forms of bullying.

Reporting Procedures for Alleged Policy Violations

1. **Reporting requirements for school staff:** Any school staff member with knowledge or suspicion of a violation of this policy or who has received an oral or written report of a violation of this policy from a student, community member, or anonymously shall contact the building principal to inform him/her as soon as possible. If the alleged violation implicates

the building principal, the school staff member shall report it to the Superintendent. If the alleged violation implicates the Superintendent, the school staff member shall file it with the Board President.

Should school administration determine that a school staff member knew of or suspected a violation of this policy and failed to report it in accordance with the procedure above, the staff member may be subject to disciplinary consequences or, for sponsors of school-sanctioned activities, other corrective measures.

2. **Reporting options for students and community members:** Students and community members (including parents) may report known or suspected violations of this policy using any of the following methods:
 - a. Completing a written complaint form. A complainant will have the option of including his/her name on this form or filing it anonymously. The District will place the form in a variety of locations throughout the school and should inform students and staff of these locations. The form may be returned to any school staff member, filed in a school building's main office, or placed in a designated drop box located in each school.
 - b. Complete and submit an online complaint form. A complainant will have the option of including his/her name on the form or submitting it anonymously.
 - c. File an oral report with any school staff member.

A complaint filed anonymously may limit the district's ability to investigate and respond to the alleged violations.

Reporting to Law Enforcement & Others Forms of Redress

Anytime a school staff member has reasonable suspicion that a bullying incident constituted a crime, s/he shall report it to law enforcement. Also, nothing in this policy shall prevent a victim/his/her family from seeking redress under state and federal law.

Documentation & Retention

The District shall develop a form to report alleged violations of this policy. The form should be completed by school staff when they:

1. Initiate a report of an alleged violation of this policy; or
2. Receive an oral report of an alleged violation of this policy.

The form should be completed by an administrator when s/he:

1. Initiates a report of an alleged violation of this policy; or
2. Receives an oral report of an alleged violation of this policy.

All written reports of an alleged violation of this policy received by the District shall be forwarded to the appropriate school administrator for investigation and retention.

Report forms and all other documentation related to an investigation of an alleged violation of this policy shall be retained by the District for six years after a student turns 18 or graduates from high school, whichever is later. If a student does not graduate from the District, such reports and investigation material shall be retained for six years after the student turns 18.

Investigation Procedures

School administrators (i.e., a principal, an assistant superintendent, or the Superintendent) are required to investigate violations of this policy (as prescribed under "Prohibitions"), when in receipt of actual notice of an alleged violation. Actual notice of an alleged violation occurs when alleged bullying, reprisal, retaliation, or false reporting is reported using the applicable method(s) prescribed in the reporting section of this policy.

Upon receipt of a report of an alleged policy violation, the designated administrator shall first determine if the alleged policy violation is based on a protected status—whether actual or perceived. Reports involving a protected status shall be investigated in accordance with the district’s harassment/ discrimination policy, including the timelines contained therein.

In all other cases, administration shall determine the level of investigation necessary based on the nature of the alleged violation of this policy after considering factors such as, but not limited to: the identity of the reporter and his/her relationship to the victim/alleged perpetrator; the ages of the parties involved; the detail, content, and context of the report; whether this report is the first of its type filed against the alleged perpetrator. Based on the level of investigation the administrator deems necessary, investigations may include any or all of the following steps or any other investigatory steps that the administrator deems necessary:

1. Identification and collection of necessary and obtainable physical evidence (*NOTE: In some cases physical evidence may be unobtainable, e.g., a private social networking profile*).
2. Interviews with the complainant, the victim, and/or the alleged perpetrator. At no time during an investigation under this policy shall the victim/ complainant be required to meet with the alleged perpetrator.
3. Interviews with any identified witnesses.
4. A review of any mitigating or extenuating circumstances.
5. Final analysis and issuance of findings in writing to the victim and bully and, if applicable, implementation of victim protection measures and disciplinary measures under this or other applicable policies.

Investigations shall be completed within 60 days unless the administrator documents good cause for extending this deadline. Such documentation should be sent to the victim and alleged perpetrator during the investigation.

Disciplinary & Corrective Measures

Students that the District has found to have violated this policy shall be subject to disciplinary consequences and/or corrective measures. When determining the appropriate response to violations of this policy, administration shall take into account the totality of circumstances surrounding the violation. Measures that may be imposed include, but are not limited to:

1. Require the student to attend detention;
2. Impose in- or out-of-school suspension or recommend expulsion. Due process procedures contained in the district’s suspension and expulsion policy shall be followed;
3. Recommend alternative placement. This recommendation shall be submitted to the Superintendent for approval or denial. The Superintendent may approve such recommendations only if the student has been given notice of the charges against him/her and an opportunity to respond;
4. Create a behavioral adjustment plan;
5. Refer the student to a school counselor;
6. Hold a conference with the student’s parent/guardian and classroom teacher(s), and other applicable school staff;
7. Modify the perpetrator’s schedule and take other appropriate measures (e.g., moving locker) to minimize contact with the victim;
8. If applicable, contact the administrator of the website on which the bullying occurred to report it.

If the misconduct does not meet this policy’s definition of bullying, it may be addressed under other district disciplinary policies.

For bullying initiated off campus and received on campus (e.g. cyberbullying), the District only has authority to impose disciplinary measures if the bullying substantially disrupted the educational environment or posed a true threat. In all other cases of off-campus bullying received on campus, the District may only take corrective measures as described in items five through eight above.

If the perpetrator is a school staff member, the District shall take appropriate disciplinary action including, but not limited to: a reprimand, modification of duties (only if allowed by applicable policy, the negotiated agreement, and/or the individual's contract), suspension, or a recommendation for termination/discharge in accordance with any applicable law.

Victim Protection Strategies

When the District confirms that a violation of this policy has occurred, it should notify the victim's parents and shall implement victim protection strategies. These strategies shall be developed on a case-by-case basis after administration has reviewed the totality of the circumstances surrounding the bullying incident(s) or other violations of this policy. Strategies may include, but not be limited to, the following:

1. Additional training for all students and applicable staff on implementation of this policy and/or bullying prevention.
2. Notice to the victim's teachers and other staff to monitor the victim and his/her interaction with peers and/or the assignment of a staff member to escort the student between classes.
3. Assignment of district staff to monitor, more frequently, areas in the school where bullying has occurred.
4. Referral to counseling services for the victim and perpetrator.
5. Modification of the perpetrator's schedule and other appropriate measures imposed on the perpetrator (not the victim) to minimize the perpetrator's contact with the victim.

Prevention Programs & Professional Development Activities

In accordance with law, the District shall develop and implement bullying prevention programs for all students and staff professional development activities.

BUSING: (BUS RIDER EXPECTATIONS)

The safe transportation of all students and staff members is the number one priority of all bus drivers and South Heart School. Passengers are expected to remain seated at all times and conduct themselves in such a way that does not create a distraction for the driver. Furthermore, school-sponsored transportation (both contracted rural bus routes and district-owned activity buses/other vehicles) is an extension of the school/classroom. Therefore, appropriate behavior expected at school and all school rules apply to students and staff when utilizing school-sponsored transportation. Drivers and other staff members on the bus have the same authority as classroom teachers to create rules that help to promote safety and have the authority to impose disciplinary action as needed, up to and including removal of riding privileges.

Prohibitions

No student will *knowingly* possess, handle, carry, or transmit any firearm or weapon on school property.

Disciplinary Consequences

Violation of this policy will result in disciplinary action up to and including suspension or expulsion. Bringing a weapon other than a firearm to school will require that proceedings for the suspension for up to 10 days and/or expulsion for up to 12 months be initiated immediately in accordance with the district's suspension and expulsion policy.

Bringing a firearm to school will require that the District immediately initiate proceedings for the expulsion of the student involved for a minimum of one calendar year in accordance with the district's suspension and expulsion policy. The Superintendent may modify the length of a firearms-related expulsion on a case-by-case basis based on the following criteria:

1. The totality of the circumstances, including the severity of the incident and the degree of endangerment of other students and staff.
2. The age and grade level of the student.
3. The prior disciplinary history of the student being expelled.

4. Relevant factors that contributed to the student's decision to possess a firearm in violation of this policy.
5. The recency and severity of prior acts resulting in suspension or expulsion.
6. Whether or not the optional provision of educational services in an alternative setting is a viable alternative to modifying the duration of the expulsion.
7. Input, if any, provided by licensed professionals (psychologists, psychiatrists, counselors) as to whether or not the expelled student would place himself/herself or others at risk by returning to the school prior to the expiration of the expulsion period.

Parents will be notified and all weapons will be confiscated and may be turned over to the student's parents or to law enforcement officials at the discretion of the administration. Firearms will be confiscated and turned over to law enforcement.

Special Education Students

This policy does not apply to students enrolled and participating in a school-sponsored shooting sport, provided that the student informs the school principal of the student's participation and the student complies with all requirements set by the principal regarding the safe handling and storage of the firearm. The principal may allow authorized persons to display weapons, other dangerous objects or look-a-likes for educational purposes. Such a display will be exempt from this policy.

CHURCH NIGHT AND SUNDAY POLICY

During the school year, school-sponsored sports/activities are not permitted to access/use the school on Sundays unless the following Monday is the date of a regional or state competition/performance in which the sport/activity is participating or permission has been granted by the Superintendent due to extenuating circumstances.

School-sponsored sports/activities/other groups are allowed to access/use the school on Sundays when school is not in session during the summer months.

Community groups not associated with any school-sponsored sport/activity are allowed to access/use the school on Sundays at any time both during the school year and during the summer after signing a building use agreement with the Superintendent.

Wednesday has been set aside as "Church Night". South Heart School will continue to cooperate in scheduling as few events as possible on that night, thus allowing full opportunity for the churches to carry on their affairs without conflict with school activities. Unless approved by the Superintendent, all school activities must be over by 5:00 pm.

CLASSROOM VISITATION

Parent(s)/Guardian(s) may visit their child's classes on school days, subject to the approval of school administration and the following guidelines. Parent(s)/Guardian(s) are asked to understand the Board's responsibility to safeguard the learning environment for all students, and be sensitive

to the disruption that can be caused by having visitors frequently observe the classroom and place demands on teacher time. The Board also has an obligation to protect the privacy rights of all students and their families by ensuring that the frequency of visitations by one parent/guardian does not allow that parent/guardian to develop inappropriate knowledge of the behavior or academic progress of other students.

The Administration adopts the following policy for parent(s)/guardian(s) visitations:

1. All parent(s)/guardian(s) visitations are subject to the approval of the school principal, who is charged by the Board with the responsibility of guaranteeing the learning environment and privacy of students.
2. Parent(s)/Guardian(s) desiring to visit a classroom shall make a request in writing to the principal no later than two days prior to the date of the visit. The principal should consult with the teacher and respond to the parent(s)/guardian(s) in a timely manner.
3. Visitors are required to check in at the school office prior to the start of the class that they wish to observe, and to follow individual school procedures for visitor sign-in, passes, etc.
4. Parent(s)/Guardian(s) in classrooms are there as guests and are asked to behave as quiet observers of classroom activities, unless specifically requested otherwise by the classroom teacher. Visitors should arrive before the start of class and stay until the class is dismissed.
5. Except on special open house or visitation days arranged by the Superintendent, no more than two visitors shall be permitted in a classroom on any given day.
6. To protect the privacy of other students, the parent(s)/guardian(s) of a student are limited to two classroom visits per grading period, and agree to keep any information gained on the behavior or performance of other students strictly confidential.
7. Visitation shall not be allowed during tests or other student examination/evaluation.
8. Teachers are expected to use the time between classes for preparation, meetings with students, and discussion with colleagues. Visiting parent(s)/guardian(s) are to refrain from using classroom observations for impromptu parent/guardian-teacher conferences either during or outside of class time. An appointment should be made with the teacher if the parent(s)/guardian(s) wish(es) to discuss their child's educational progress. Teachers shall refrain at all times from discussing the behaviors or achievement of other students with visiting parent(s)/guardian(s).

Parent(s)/Guardian(s) who fail to abide by these regulations or who intentionally disrupt the educational process of the school may be asked to leave and/or be denied permission for future visits.

CLOSED CAMPUS

Students attending South Heart School are to remain on the school property during the hours that school is in session (8:20am – 3:08pm), including the lunch period. The exception would be parent/guardians submitting written requests or phone requests for their child to come home for lunch. Seniors honoring a written senior privilege contract with the building principal, will be allowed to leave campus during their study hall hour.

CONCUSSION MANAGEMENT

School Board Policy FCAF

The District shall comply with the concussion management program requirements contained in law (NDCC 15.1-18.2). For the purposes of compliance, the District has placed concussion signs and symptoms; removal from practice, training, and/or game requirements; return to play requirements, and staff, student, and parental training requirements in administrative regulations (FCAF-AR). These regulations shall be published in student handbooks.

For the purpose of implementing the concussion management program law, the Board has also established the following definitions and requirements.

Definitions

Law requires that all school-sponsored and sanctioned athletic training, practices, and games be governed by a concussion management program. For purposes of determining what constitutes athletic sponsorship and sanctioning, the District has developed the following definitions:

- *School-sanctioned athletic activity* is a sport that:
 - a. Is not part of the district's curricular or extracurricular program;
 - b. Is established by a sponsor to serve in the absence of a district program;
 - c. Receives district support in multiple ways (i.e., not school facility use alone);
 - d. Requires participating students to regularly practice or train and compete.
 - e. The District has officially recognized through board action as a school-sanctioned activity.

The Board shall make all sanctioning decisions on a case-by-case basis based on the criteria in this paragraph. As a condition of receiving school sanctioning, sponsors of the athletic activity shall agree to comply with this policy and the concussion management law. This includes agreeing to provide appropriate training as required by law and providing appropriate information to parents and students as required by law. The sponsor shall provide to the District documentation certifying that this training has occurred and students/parents have viewed required informational material on concussions prior to beginning the activity.

- *School-sponsored athletic activity* is a sport that the District has approved through policy or other board action for inclusion in the district's extracurricular program, is controlled and funded primarily by the District, and requires participating students to regularly practice or train and compete.

Removal Decisions

Under the concussion management law, the District is authorized to designate removal-from-play authority to individuals who have direct responsibility for student athletes during practice, training, and/or games if a student reports or exhibits a sign or symptom of a concussion. The Athletic Director shall make this determination, and the Athletic Director shall ensure that such designees are aware of this responsibility and have undergone appropriate training in accordance with law before commencing duties.

Law also authorizes licensed, registered, or certified healthcare providers whose scope of practice includes recognition of concussion signs and symptoms to make removal decisions. The Athletic Director should consult with community members, parents, and staff to determine who has such credentials and who would be willing to assist in this regard. The District should compile a list of such individuals, which should be provided to all coaches. This measure in no way guarantees that a healthcare provider trained and credentialed in accordance with law shall be present at athletic training, practices, and/or events nor shall the voluntary creation of this safety precaution

be construed to created or assume any potential liability under local, state, or federal law or regulation.

While law allows coaches and officials to make removal from play decisions when concussion signs or symptoms are reported or observed, the District prohibits any coach or official under the age of 18 or who is currently a high school student from making such removal decisions. High school students and minors who serve as coaches or officials are required to report any known sign, symptom, or report of a student's concussion as soon as possible to an adult who has removal-from-play authority for action. This restriction shall be a condition of allowing a minor/high school student to coach or officiate at district training, practices, and games.

If two or more parties with removal-from-play authority disagree on whether or not a student (who reports or exhibits signs or symptoms of a concussion) should be required to sit out, the District requires that the ruling be made in the interest of the student's safety, meaning that the student shall be required to sit out and comply with return-to-play requirements contained in law.

Return to Play

The Board designates the Athletic Director to receive return-to-play documentation from a healthcare provider. This designee shall review the documentation, determine if the healthcare provider has placed any conditions on return to play, contact the healthcare provider for any necessary clarification on the authorization document, and communicate such information to applicable coach(es) and assistant coach(es). This designee shall also file return-to-play authorization documents in the student's educational record. This documentation must be retained for seven years after the student's enrollment or six years after a student turns 18, whichever is later.

 - i. Who reports any sign or symptom of a concussion

NOTE: Policy prohibits coaches and officials who are minors or current high school students from making removal decisions due to a suspected concussion. Such individuals are required to inform, as soon as possible, an adult with removal authority of reported or observed signs or symptoms of a concussion.

- b. A licensed, registered, or certified healthcare provider whose scope of practice includes the recognition of concussion signs and symptoms has removal authority if s/he determines, after observing the student, that the student may have a concussion.
- c. If two or more parties listed above with removal-from-play authority disagree on whether or not a student (who reports or exhibits signs or symptoms of a concussion) should be required to sit out, the District requires that the ruling be made in the interest of the student's safety, meaning that the student shall be required to sit out and comply with return-to-play requirements contained in law.

2. When to Call for Emergency Assistance*

If an athlete exhibits the following symptoms, a district employee, sports authority (e.g., coach, assistant coach, trainer, referee) or designee should call 911 for emergency medical assistance:

- f. The athlete exhibits seizure symptoms/activity.

3. Transportation when Emergency Assistance is NOT Activated

Under no circumstances should a student with a suspected head injury be sent home or allowed to drive. An athlete removed from play in accordance with this procedure whose condition appears stable (i.e., not worsening) should be transported by his/her parent to a medical facility as soon as possible. If the student's parent is unavailable, the coach shall make arrangements to have the student transported to a medical facility by a school employee as soon as possible. The coach or designee shall make a continued effort to notify the student's parent of the student's possible injury, transportation arrangements, and destination.

4. Examination

A student removed from practice, training, or competition for one or more of the reasons in #1 above must be examined as soon as practical by a licensed healthcare provider who is acting within his/her scope of practice and trained in evaluation and management of concussions as determined by the provider's licensing board.

5. **Return-to-Play Requirements**

A student who is removed from play in accordance with this procedure will not be allowed to return to practice, training, or competition until the student or the student's parent obtains **written** authorization from a licensed healthcare provider who is acting within his/her scope of practice and trained in evaluation and management of concussions as determined by the provider's licensing board. This written authorization must be given to the district official designated in policy and retained in accordance with policy.

Training

Upon initial employment (or selection, in the case of volunteers) and every two years thereafter, each district coach, official, and other individuals designated by the District who have removal-from-play authority due to suspected or reported concussions shall receive training regarding the nature and risk of concussions.¹ The Athletic director shall determine the method most suitable for carrying out this training requirement and should place, in each applicable personnel file, documentation of the date(s) the staff member/district designee completed concussion training.

The District shall develop information on concussions incurred by athletes and disseminate this information to student athletes and their parents. Before allowing a student to participate in an athletic activity, the District shall require the student and student's parent to submit written [**or electronic**] documentation verifying that they have viewed the concussion management information disseminated by the school.

EXTRACURRICULAR PARTICIPATION REQUIREMENTS

School Board Policy FFE

Philosophy

The Board believes that participation in extracurricular activities constitutes a privilege and not a right. Students who participate in extracurricular activities represent the student body, school district, and community on the state and national level. As such, behavior of these students is a reflection on the entire community.

The District will enforce the requirements placed on extracurricular participants by the North Dakota High School Activities Association (NDHSAA), which govern both on- and off- campus behavior. In addition, the Board has established the following extracurricular participation requirements.

Activities Affected by this Policy

Activities affected by this policy shall include extracurricular activities as listed in the student handbook, including those not sponsored by NDHSAA.

Guilt by Association Rule

In addition to the tobacco, alcohol, and other drug prohibitions contained in NDHSAA bylaws, the District prohibits student presence at a gathering where alcohol, tobacco, or a controlled substance is being illegally used. Student presence at such a gathering will be regarded as possession. The building Principal will take into consideration whether or not the student was at a gathering where the student had knowledge that alcohol, tobacco, or a controlled substance was being illegally used, and whether or not the student had a reasonable opportunity to remove him/herself from said location. The disciplinary consequences for violating this rule shall be suspension from extracurricular participation for the same duration as prescribed for tobacco, alcohol, and other drug possession by NDHSAA bylaws.

Academics

NDHSAA requires that local districts establish a definition of what constitutes a failing grade. For the purposes of this policy, a failing grade is defined as receiving an “F” or lower in any curricular course as computed from the beginning of the semester.

In addition to NDHSAA academic standards, the South Heart Public School District also requires that no student may participate in a contest if he or she is failing one or more classes as computed from the beginning of the semester.

Violation of Other Misconduct Policies

Students who violate student conduct policies not covered by NDHSAA bylaws may be subject to suspension or removal from extracurricular activities for a period to be determined by the School Administration and coach/activity advisor of the activity(s) in which the student participates. Such consequences shall be imposed in addition to other disciplinary consequences imposed under the applicable policy.

Suspension Procedure

When the Principal, as a result of his/her investigation, concludes that a violation of this policy or NDHSAA bylaws has occurred, s/he shall issue notice to the student of this suspension.

Practice and Travel while Suspended

Students who are under suspension are encouraged to practice and travel with their respective teams. However, suspended students will not be allowed to miss school time to travel with the team. Additionally, coaches and advisors may impose additional consequences as approved by the School Administration.

Period of Enforcement

This policy shall be in effect 12 months per year, including those days and months when school and extracurricular activities are not in session. It shall be in effect for all school-sponsored extracurricular activities

Accumulation of Violations

A student's record of violations of this policy shall be cumulative commencing with promotion from grade eight to grade nine and concluding upon his/her graduation or completion of any school-sponsored activity extending beyond graduation (e.g., state track meet).

Off-Season Violations

In addition to the penalties delineated in this policy, in the event the suspension is administered during a season when the student is not actively participating (e.g., summer for all students, fall for a student participating in track), the student's suspension shall be extended to include a minimum of a two-week or two-contest suspension (whichever is more severe) from the student's next activity. "Next activity" shall be defined as the next activity in which the student begins practicing at the appropriate date and concludes at the end of the season (i.e., does not start and quit). Should the student's next activity not be until the following school year, the two-week or two-contest rule will be applied at that time.

Due Process Appeal Procedure

Before being suspended, the student will be advised of the nature of the violation, the evidence against him/her, and the right to request an appeal hearing within three school days of the building Principal's decision. If a student wishes to appeal the decision, an appeal hearing must be requested to the building Principal within three school days of being notified of the suspension. Once the request is made, the appeal hearing will take place as soon as possible, preferably within three days of the request to have such hearing.

Appeal Hearings: The following parties may be involved: the participant being charged, parents/guardians of the participant, witnesses to the violation, the investigating building Principal, and legal counsel for the participant if he/she desires. The participant being charged will be allowed to testify, to have witnesses, and to question all witnesses.

Initial Appeal: The initial appeal hearing will be heard by the Superintendent. Once the appeal hearing is over, the Superintendent will render a decision. The Superintendent may delay his or her final decision if he or she feels it necessary to investigate the incident further. If a student wishes to appeal the decision of the Superintendent, an appeal hearing to the South Heart School Board must be requested to the Superintendent within three school days.

Final Appeal: The final appeal hearing will be heard by the South Heart School Board. The School Board may delay its final decision if they feel it necessary to investigate the incident further.

Note: During the time between notification and the hearing, the suspension may be deferred for good cause shown. However, if the school administration believes that clear and substantial evidence shows that the student is in violation of this policy, the student will be suspended immediately. NDHSAA regulations state that if the suspension is not immediately imposed and the student is found to be guilty at a later date, any interscholastic contests or activities participated in by that student have to be forfeited.

**End of South Heart School Policy FFE Adopted: 11/11/15
Amended: 6/8/16**

SCHOOL MEDICATION PROGRAM

School Board Policy ACBD

The South Heart Public School District has established a program for providing medication to students during the school day and when students are otherwise under the district's direct supervision (e.g., participating in a school activity, on a school-sponsored trip). This program is only available to students when the applicable requirements under this policy have been satisfied.

Qualifications for Eligible School Medication Providers

In order to be eligible to provide medication under this policy, an individual must meet the following criteria and receive approval from the Superintendent.

 - a. Individual's authority and role in providing medication;

 - c. Proper techniques for providing medication including, but not limited to, understanding pharmacy labels, standard precautions for infection control (e.g., hand washing), six rights of medication administration, and measuring and dispensing protocols;
 - d. Appropriate documentation of all medication provided and confidentiality requirements;
 - e. Basic medical terminology related to providing medication;
 - f. Appropriate action if unusual circumstances occur (e.g., medication error, adverse reactions, student refusal) and how and when to seek medical consultation or assistance;
2. Provided the Superintendent with verification that the above training and education is complete;
3. Undergone a criminal history record check through the District and received satisfactory adjudication;
4. Agreed to perform the duty of providing medication;
5. Received written consent of the student's parent or guardian;
6. Agreed to comply with this policy and any additional district rules on providing medication.

The District shall pay the cost of all district-authorized education and training for school medication providers.

Requirements and Prohibitions for All School Personnel

All school employees and volunteers shall comply with the district's Drug and Alcohol Free Workplace policy, which prohibits illegal activities associated with prescription and over-the-counter medication. In addition, eligible school medication providers and all other school employees and volunteers with knowledge of a student's health condition and/or medication regimen shall comply with district policies and law on confidentiality of student education records—records that include student health records. Additional rules governing the school medication program are contained in administrative rules.

All school employees and volunteers are required, as soon as possible, to report to building administration or his/her designee any observed or reported sign or symptom that a student may be having an adverse medication reaction or allergic reaction.

Any violation of this policy or other district rules governing medication may result in disciplinary action, including, but not limited to, discharge (in accordance with applicable law) and/or removal of medication provider duties, if applicable.

Types of Medication Provided

The District may provide both prescription and over-the-counter medication to students covered by this policy so long as they are legal under state law and:

1. Recognized as drugs in the official U.S. Pharmacopoeia and national formulary, or
2. Recognized as drugs in the official Homeopathic Pharmacopoeia of the U.S., or
3. Recognized as drugs in any supplementary publication to the above references, and

The District may consult a qualified healthcare provider (e.g., pharmacist) to determine if the above, applicable criteria have been met. The District shall maintain the student's confidentiality when making such an inquiry unless the student's parent/guardian has waived confidentiality rights.

The District and all school employees and volunteers are prohibited from purchasing over-the-counter medications to provide to students.

Routes of Medication Provided

Eligible school medication providers may provide oral and non-oral, noninvasive medication (i.e., medication provided by non-parenteral routes) to students covered by this policy.

Except for students covered by an Individual Education Program (IEP) or 504 Plan, if a student's medication requires administration through the parenteral route, the District may deny a parent's/guardian's request to provide such medication or may require the parents/guardians to reimburse the District for the expense of hiring a healthcare provider who has authority under state law to administer such medication, if the District does not have a medically qualified and eligible school medication provider on staff who is willing to administer the medication. Eligible school medication providers shall not provide medication through parenteral routes unless they have the proper authority under state law, including certification or licensure, to perform such functions. The District shall retain verification of such authorization, certification, or licensure.

If a medically qualified and eligible school medication provider is requested to perform any invasive medication administration, the District first should contact its insurer to determine if additional liability coverage is necessary if the District has not previously made this inquiry.

Students Eligible for Participation

The following students are eligible for participation in the medication program established by this policy:

1. Students who qualify for this service under their IEP or 504 Plan. The District shall pay the cost of these services.²
2. Students who are not covered by the Individuals with Disabilities Education Act (IDEA) or 504 but who require medication when under the direct supervision of the school and whose parents/guardians are unable to make arrangements to provide medication themselves. An exception to such a student's participation in the medication program may apply if the student requires medication through a parenteral route (see section on routes of medication provided).
3. Students who require emergency epinephrine treatment in accordance with ND Administrative Code Ch. 33-37-01 and/or students who require emergency medication under NDCC 15.1-19-16. This policy, ACBD, shall not supersede NDCC 15.1-19-16, which contains criteria for a school to authorize student self-administration of emergency medication.

² If a physician's services are required, the District may not be responsible for paying this cost.

The building principal and Superintendent are authorized to approve other circumstances under which a student is eligible to participate in the school's medication program. This administrator should contact legal counsel and should request permission from the student's parent/guardian to consult with the student's healthcare provider (to better understand the implications and scope of the request) before acting on such requests.

First Dose of Medication

Whenever possible, the first dose of medication should be given to a student at home.

Requirements for Parents/Guardians Prior to District Providing Medication

A parent/guardian must sign a written form authorizing his/her student to receive medication from an eligible school medication provider prior to carrying out this service. A new authorization form is required anytime the student has a change in his/her medication regimen, when a new medication is to be provided, when the District assigns a new medication provider to the student, and at the beginning of each school year. This form must include the following:

1. **For over-the-counter medication:** Must include instructions from the parent/guardian on how, when, and how long to provide medication. Requests to provide a dosage other than as recommended by the manufacturer shall require approval from an appropriate healthcare provider.
2. **For prescription drugs:** Requires written authorization and instructions from an appropriate healthcare provider on how, when, and how long to provide medication.
3. **For more than one medication (prescriptions, over-the-counter medications, or both):** Must include information from a healthcare provider certifying that the drugs are not known to adversely interact or information on how to avoid any known adverse drug interactions.
4. **For students with allergies:** If a student has any known allergies, the parent/guardian shall provide this list of allergies to the school with all medication requests and include certification from a healthcare provider that the student is not known to be allergic to medication that the school is requested to provide. This list must be accompanied with certification that the student has knowledge of all of his/her known allergies and has received education and training on signs and symptoms of allergic reactions and how to prevent them.
5. **For all requests for the school to provide medication:**
 - a. Contact numbers for the student's parents/guardians and healthcare provider(s).
 - b. Waiver of confidentiality allowing administration or the eligible school medication provider to contact the student's healthcare provider(s) with questions or concerns and allowing the District to share information about the student's health condition and/or medication regimen with any school employee/volunteer with a legitimate need to know.
 - c. Information on possible adverse reactions and side effects associated with each medication that the parent/guardian is requesting the school to provide and certification that students have been educated in possible side effects.

Medication Check-In Requirements When District is Providing Medication

When sending medication to school, parents/guardians must comply with the following requirements:

1. If the over-the-counter medication is supplied by the student's parent or guardian, it must be supplied in the original manufacturer's container, and the container must list the ingredients, recommended dosage, expiration date, administration instructions, and storage instructions (if any) in a legible format. The container must be labeled with the student's name, date of birth, and, if unsealed, the number or amount of medication in the container.
2. Prescription medications must be supplied in the original pharmacy-labeled container and include the name and phone number of the pharmacy. The container must list, in a legible

format, the name of the student, student's date of birth, name of the prescription medication, dose, expiration date, storage instructions (if any), administration directions, number or amount of medication included, and the container must list or be accompanied by active ingredients in a legible format. 3. If dispensing equipment is required (e.g., measuring cups, droppers), it must be provided by the parent/guardian. The equipment must be clean, operable, and labeled with the student's name and date of birth. Any special medical equipment storage instructions must be provided to the school by the parent/guardian or student's healthcare provider.

All medication must be hand delivered by a parent/guardian to the designated district official. This official shall ensure that the appropriate authorization form(s) is/are complete, that the medication has not expired, that the medication is appropriately labeled in accordance with above requirements, and that parents/guardians have complied with all other applicable provisions of this policy before accepting the medication from the parent/guardian.

Student Self-Administration Policy

Students are NOT permitted to self-administer medication unless authorized by the building principal or Superintendent for emergencies situations only.

Additional Prohibitions, Restrictions, and Requirements for Students

All students are required to comply with the district's policy on drug and alcohol free schools, which contains prohibitions on illegal activities associated with prescription and over-the-counter medication. Students who violate the Drug and Alcohol Free Schools policy by engaging in a prohibited activity with medication originally authorized by this policy may be subject to disciplinary action. In addition, the District may refuse to provide medication to the violating student as long as:

1. The student is **not** covered by an IEP or 504 Plan.
2. The medication is **not** covered by an emergency provision in law or needed on an emergency basis as determined by administration in consultation with the student's healthcare provider (i.e., an inhaler, epi-pen, or insulin).

Parents/guardians of violating students not subject to an exception above will be required to make arrangements to provide medication to their children during the school day.

Students who are covered by this policy and taking medication at school must agree to report any known sign or symptom of a side effect, adverse medication reaction, or allergic reaction to a school official when the student is in school or otherwise under the school's supervision. Students authorized to carry medication must agree not to leave the medication unattended or unsecured and accessible to other students.

Medication Off-Campus When Student is Under District Supervision

Parents/guardians must make arrangements with the building principal for students who will require medication off-campus while under the district's supervision prior to the activity or event (e.g., students who participate in extracurricular events or field trips). At a minimum, parents/guardians making such a request shall be required to comply with the applicable authorization requirements contained in this policy. The District shall develop, on a case-by-case basis, check-in and storage requirements for all medication provided. The District may consult the student's healthcare provider(s) when developing these rules.

Liability Disclaimer

It is not the intent of the District to expand or modify the district's potential liability exposure through the development of this medication program. The district's voluntary creation of this program shall not be construed to create or assume any potential liability under any local, state, or federal law or regulation. State law provides liability protection for establishing and providing medication under a school medication program. This protection extends to all eligible school medication providers, the District, and the Board so long as each party is acting in good faith.

The District is not responsible for determining the qualifications of healthcare providers whose signatures appear on prescriptions and other medical documentation submitted to the District by parents/guardians. The District assumes that by signing such documentation, the healthcare provider is attesting to the validity of his/her qualifications and credentials. The District will comply with healthcare providers' orders but assumes no liability for their content.

Students shall have no reasonable expectation of privacy when using lockers. Student shall be given advanced notice of this policy through student handbooks or another form of notification.

Lockers may be subject to suspicionless searches, inspections for purposes such as routine maintenance, or searches where there is suspicion that locker(s) contains objects/substances that are illegal, violate school policy, or may be detrimental to the health, safety, or welfare of district students.

Search Procedure

When a locker is subject to a search, the principal/Superintendent should be accompanied by at least one other school staff member.

Students' personal items stored in lockers such as, but not limited to, book bags, purses, and coats shall not be searched unless there exists reasonable suspicion that they contain an object(s) or substance(s) in violation of school rules/policy, the law, or which may be detrimental to the health, safety, or welfare of enrolled students. Trained dogs may be used to smell the outside of students' lockers. If the dog detects the possibility of objects/substances that are illegal or violate school policy, the principal/Superintendent shall search the locker in accordance with the search procedure above.

In the event a police officer or other law enforcement officer is to conduct a search of a student's locker, probable cause is necessary unless the search is school-initiated and would pose a safety threat if conducted by school staff.

SEARCHES OF STUDENTS & STUDENTS' PERSONAL PROPERTY

School Board Policy FGCB

A search of a student's personal property or clothing shall only be undertaken when there is a reasonable and particularized suspicion that the student is concealing an object(s) or substance(s) in violation of school rules/policy, the law, or which may be detrimental to the health, safety, or welfare of enrolled students. The building principal or Superintendent must authorize all searches.

When the Principal/Superintendent has reasonable suspicion that one or more students are carrying a prohibited object, article, or substance or are otherwise in possession of a prohibited object, article, or substance on school property or at a school-sponsored event, all personal property belonging to the suspected student(s) may be subject to inspection. When determining the scope of a search, the principal/Superintendent shall ensure that any measures adopted are reasonably related to the object of the search and not excessively intrusive in light of the age and sex of the student.

Search Procedure

For the purposes of this policy, personal property includes, but is not limited to: a student's vehicle, backpack, book bag, and/or purse. Students may also be asked to empty their pockets; however, strip searches shall not be conducted.

Searches of persons should be conducted in private by a school employee of the same sex as the student with a school employee present as a witness.

Searches of Vehicles

The principal or designee, with a witness present, shall conduct searches of student vehicles if the vehicle is parked on school property and if reasonable suspicion exists. The principal shall make a reasonable attempt to contact the student who owns the vehicle and ensure s/he is present during the inspection unless an emergency situation is deemed to exist. If a vehicle is locked and its owner cannot be contacted or refuses to open it, the principal shall contact law enforcement.

Involvement of Law Enforcement

The principal/Superintendent may request the assistance of law enforcement to conduct any portion of a school-initiated search of a student/student's personal property that would pose a safety threat if conducted by school staff. SPORTSMANSHIP REGULATIONS

School Board Policy ABCB-BR

Good sportsmanship is a primary goal of athletic programs in the Dickinson Public School District. Both adults and students are expected to exhibit good sportsmanship during athletic events.

Students and their parents shall be informed of the district's expectations and parental cooperation will be sought in maintaining good sportsmanship. Coaches and other adult supervisors shall use appropriate disciplinary measures, such as but not limited to, loss of playing time and possible removal from the team, as a deterrent to poor sportsmanship. Student fans will be held to the same standard as players. In addition to the possibility of being barred from attendance at further events, misconduct at an extracurricular event will bear the same consequences as misconduct during school.

Coaches and adult leaders may also use suitable rewards and other positive incentives to encourage good sportsmanship among students.

Coaches and other adult leaders are also expected to exhibit good sportsmanship. Instances of failure to do so will result in disciplinary action such as but not limited to, oral and written reprimands; failure to correct negative behavior could result in possible suspension from extra-duty activities.

Fans and spectators who are not students are also expected to show good sportsmanship. Failure to do so is cause for security personnel and administrators to suggest that they are not serving as a good role model for young people and if negative behavior persists or is particularly offensive, they will be asked to leave and may be restricted from attendance at future events.

When a principal/Superintendent has reasonable suspicion that a student has violated this policy, s/he may search the student in accordance with the district's policy on searches of students' personal property.

Such searches shall not include referral for mandatory alcohol/drug testing.

Disciplinary sanctions will be imposed on, and additional actions may be taken (as listed below) in response to, any violation of this policy. These sanctions may include suspension or expulsion, intervention (as described below), and notification of proper authorities for prosecution. Prohibited substances will be confiscated and illegal substances will be turned over to law enforcement authorities.

Intervention

It is acknowledged that the public school has neither the authority nor the responsibility to make medical or health determinations regarding chemical dependency; however, when observed behavior indicates that a problem exists that may affect the student's ability to learn or the educational climate of the school, the school has a right and a responsibility to refer the student for a formal chemical dependency diagnosis. The Superintendent shall develop a procedure for chemical dependency identification and referral for treatment.

Referral for treatment shall be a constructive not punitive action; however, use of the treatment program shall not override or prohibit the District from taking disciplinary action for violations of this policy.

The school will make a reasonable effort to cooperate with a therapy program if one is recommended for the student. The Board believes that if a student is involved in a chemical dependency program and is successfully addressing his/her harmful involvement with chemicals, s/he may continue in the regular school setting and continue to participate in any extracurricular program unless participation is in conflict with rules and regulations set forth by the Board and the North Dakota High School Activities Association and/or the student has been suspended or expelled as a result of a district policy violation.

³When a teacher/principal participates in a juvenile court program and receives confidential information about a student.

The school may, through the use of available resources, provide follow-up counseling and supportive assistance to those students who return after successfully completing a therapeutic regimen, realizing that the student may need assistance in dealing with other environmental factors beyond the school's control which may remain unchanged.

Confidentiality

The District shall maintain the confidentiality of students referred for counseling and chemical dependency treatment in accordance with the district's policy on counseling records.

Education

The District will teach about drugs and alcohol in an age appropriate developmentally based education and prevention program in every grade in accordance with law. This program will include information about drug and alcohol counseling and rehabilitation programs available to the students.

In addition, the District will conduct staff orientation and training on drug and alcohol prevention, including a periodic overview of this policy and its procedures for implementation. The District will also provide parent and community education on the topic of drug and alcohol prevention.

Policy Implementation

Student handbooks shall contain a statement of sanctions required concerning the possession, use, or distribution of drugs and/or alcohol.

The South Heart Public School District will review this policy and its implementation periodically to ensure that disciplinary sanctions are consistently applied and to determine the effectiveness of the program for the prevention of alcohol and other drug use/abuse.

STUDENT CONDUCT & DISCIPLINE

School Board Policy FF

Conduct Standards

Students will be expected to conduct themselves in a manner fitting their age level and maturity, in a manner that will not impede on the orderly conduct of district schools, and will be expected to respect the rights of others on district property, including, but not limited to, district owned/leased/chartered vehicles, at school-sponsored events, and off-campus when student conduct has or is reasonably predicted to have a substantially disruptive effect on district operations and/or the educational environment.

Disciplinary Standards

Consequences for misconduct will be fair and developmentally appropriate in light of the circumstances. The Superintendent shall develop age-appropriate disciplinary standards in consultation with principals and other applicable district personnel. In addition, the Superintendent shall develop administrative regulations to assist administrators/their designees with investigating potential conduct violations.

Disciplinary policies, procedures, and guidelines need not be identical in content district wide but must:

1. Be identical in content for all district elementary schools;
2. Be identical in content for all district middle schools;
3. Be identical in content for all district high schools.

Disciplinary Standards for Special Education Students

District employees are required to comply with the Individuals with Disabilities Education Act when responding to violations of student conduct standards by special education students.

Prohibited Disciplinary Actions

The Board recognizes that reasonable physical force may occasionally be necessary to guard the safety and well-being of students or employees or to deliver a student to an administrator's office; however, the use of corporal punishment, defined as the willful infliction of physical pain on a student, is not allowed in the South Heart Public School District. Corporal punishment does not include action taken by an employee for self-defense, protection of persons or property, obtaining possession of a weapon or other dangerous object, to quell a verbal disturbance, for the preservation of order, or pain or discomfort caused by athletic competition or recreational activities voluntarily engaged in by a student.

Complaints alleging that a district employee inflicted corporal punishment will be dealt with in accordance with school board policy on personnel complaints.

Disciplinary Authority

Regulations on disciplinary standards and investigation procedures shall delineate the degree of disciplinary authority that the District shall grant to teachers and principals.

Other school personnel shall be granted disciplinary authority by the Principal on a case-by-case basis based on the nature and scope of the employee's duties. Personnel granted such authority shall be required to comply with this policy and any disciplinary authority limits established by regulations. Employees unauthorized to administer student discipline shall report student misconduct to the appropriate school authority.

Any district employee who acts outside the scope of his/her assigned level of disciplinary authority may be subject to disciplinary action, including but not limited to, discharge from/termination of employment in accordance with law and/or the negotiated agreement.

STUDENT CUSTODY

School Board Policy FCBD

Section I: Parent's/Legal Guardian's Rights at School

The South Heart Public School District assumes that both of a student's biological or adopted parents and all other legal guardians (hereafter parents) have equal access to their child at school, play an equal role in educational decisions related to their child, and have equal access to their child's educational record restricted only by limitations delineated in district policies and regulations that are applicable to all parents/guardians and when access/participation is reasonably predicted by the Superintendent or Principal to disrupt the educational environment. Exceptions to these assumptions exist when criteria in Section II of this policy have been satisfied.

Section II: Restricting Parent/Guardian Access and Rights

A parent is responsible for providing the District with legally binding documentation (e.g., court order) restricting parent rights. Such documentation must be current and a parent is responsible for ensuring that the documentation remains up-to-date. District personnel shall not initiate a request for or otherwise actively seek information pertaining to student custody.

The District will act in good faith to comply with the terms and restrictions of any current legally binding document pertaining to student custody that is provided to one of its schools. However, it shall not be responsible for validating the authenticity of such documentation or interpreting and implementing any provision that is unclear.

If a parent makes a student access request that is not addressed clearly by the legal documentation on file, the District shall notify both parents that the documentation on file is unclear, that the District needs further clarification from the court on this matter, and that the District will consult with its attorney on how to respond to the request in the interim while additional documentation is being sought by the parent(s).

Section III: Student Visitation and Release

A request by a parent to visit or otherwise access his/her child at school shall be handled in accordance with applicable district policy and rules (e.g., rules on visitors in schools, parent visits to school, phone calls at school, etc.). The District shall deny any request that the Superintendent or Principal reasonably predicts will disrupt the educational environment or any request that is prohibited by current legally binding custody documentation on file with the school.

A request by a parent to have a designee pick up or drop off his/her child shall be handled in accordance with district policies and rules governing this matter; however, the District shall deny any request that the Superintendent or Principal reasonably predicts will disrupt the educational environment or any request that is prohibited by current legally binding custody documentation on file with the school.

The District prohibits on school property exchange of children for visitation purposes (i.e., exchanges that are condition of a custody order).

Section IV: Release of Student Educational Records

In accordance with the Federal Educational Rights and Privacy Act (FERPA), the District shall assume that both parents have equal rights to student educational records (as established by FERPA), including the right to authorize a designee access, unless:

1. Restricted by current legally binding custody documentation on file with the school, or
2. The District is aware that a student or his/her parent is participating in domestic violence or sexual assault program. In such cases, the District should contact its legal counsel to determine if any information from the student's educational record should be released to the requesting parent/designee.

Section V: Responding to Parent/Guardian Disagreements

In the event that parents engage in a custody or visitation dispute on school property, a school official, if possible, shall remove the student from the dispute to ensure the child's safety (e.g., escort the child inside the school building, move the child to the school office) and contact law enforcement.

Parent requests related to his/her child's education shall be handled in accordance with applicable district policy except when the parent does not have authority to make such requests as stipulated in current legally binding custody documentation on file with the school. Neither parent has a fundamental right generally to direct how a public school teaches their child.

The consent of both parents is required before the District places a student on an Individual Education Program if:

1. The student's parents are divorced or separated, and
2. Both have the right to make educational decisions on behalf of their child as stipulated in legally binding custody documentation on file with the school.

End of South Heart School Policy FCBD Adopted: 3/9/16

STUDENT DRESS CODE

School Board Policy FFH

The District prohibits the following articles of clothing or decoration at school-sponsored functions and/or on school property. Clothing/decoration that:

1. Is reasonably likely to substantially disrupt the educational environment;

5. Promotes illegal activities and/or the use of tobacco or alcohol.

The administration will make reasonable efforts to notify students of these rules. Each building principal shall develop a procedure for handling and disciplining students in violation of these rules.

While the school administration may require students participating in physical education classes to wear certain apparel which meets reasonable health and safety standards as established by the Board, they may not prescribe a specific brand that students must buy.

SOUTH HEART HIGH SCHOOL DRESS CODE

Personal appearance directly affects students' pride in the school; therefore, dress should be comfortable and appropriate for the learning environment. Student clothing should not be disruptive to the educational process or constitute a threat to the safety and health of the students and others. South Heart School wants to help students prepare for the business and social world; dressing appropriately is part of this education.

Written or pictorial messages on clothing, jewelry, book bags, notebooks, etc, are not allowed if they are vulgar or suggestive, interpreted as "gang" apparel, belittle any race, religion, nationality or gender, or promote tobacco, alcohol or illicit drugs. Chains which are removable from clothing are not permitted to be worn.
6. Pajamas, slippers or other loungewear are not appropriate for school.
7. Headgear or gloves are not to be worn.

Exceptions to the dress code for special occasions may be granted with pre-approval of the administration.

If the school administration determines that a student's personal appearance or dress violates the dress code, the student shall be given the opportunity to correct the problem at school. If not corrected, the student may be assigned to in-school suspension for the remainder of the day or until complying with the dress code. Repeated offenses may result in more serious disciplinary actions.

STUDENT INTERROGATIONS

School Board Policy FGCC

General Provisions

For all action permitted by this policy and/or law, it is the responsibility of law enforcement officials, not district employees, to assure compliance with procedural and constitutional safeguards.

Police Interviews

Police do not have a right to interview a student on school property or remove students from school property for purposes of an interview. Administrators shall encourage law enforcement to schedule interviews with students at times when students are not under the district's jurisdiction. When such scheduling is not feasible as determined by the building principal or Superintendent, the building principal or Superintendent shall allow an on campus interview of a student so long as the following criteria is met:

1. The officer is properly identified.
2. Parents are notified and provide consent. When an attempt to notify a parent is made and s/he cannot be reached, the law enforcement official shall be required to make alternative arrangements with the student/parent to conduct the interview off campus. If the student's parent is the suspect of a crime and the subject of the law enforcement interview, this requirement may be waived. In such cases, administration shall inform the student of his/her right to decline an interview by law enforcement. If an investigation of an offense focuses upon the child as the person who committed the offense, any statement of the child must be made in the presence of that child's parent, guardian, or custodian, or in their absence, in the presence of an attorney.
3. If the parent or guardian cannot be present, then a school official should sit in the conference in the parent's stead except when a student is the subject of a law enforcement investigation.
4. Students shall not be subject to coercion or illegal restraint.
5. Students shall not be removed from school property without proper legal documentation as delineated below.

Police Officer's Rights

In all of the situations listed below, efforts should be made to minimize embarrassment or loss of class time for the student. The office of the Superintendent/Principal should be notified immediately when any of the actions listed below has occurred.

1. **Right to Take into Custody:** Police officers, counselors of the juvenile court, or other authorized law enforcement officials have the right to enter the school to take a student into custody or to make a lawful arrest of a student, provided the officer displays either an order signed by a judge of the juvenile court authorizing the taking of the student into custody, or to display a warrant for the student's arrest. If the student is arrested and/or taken into custody at a school, the school officials should make every effort to notify the parents immediately.
2. **Right to Serve Subpoena in School:** While police officers have the legal right to serve a subpoena at school, the serving officials should be strongly urged to serve these subpoenas at the home of the student whenever possible.

Interviews of Students by Officials of Other Agencies
